TOUCH CONTROL

# ELECTRONIC FEATURES

## YOUR COFFEE SIDEKICK

New electronic features give to barista, coffee roaster, business owner or service more control over the grinder.

**TOUCH** control panel

**PROGRAMMABLE** single, double and third dose buttons

**MANUAL GRINDING** mode

**STEPS** of a hundredth of a second

**TOTAL** dose counter

**PARTIAL** dose counter

**MANUAL PAUSE** function in between grinding

Ability to set up a **MAX TIME** per dose

Bright and colourful **TOUCH** control panel

## EXCELLENT TOUCH DETECTION

Super Jolly V Up is the first in the Mazzer range to feature a bright **TOUCH CONTROL PANEL**, direct and easy to understand, with an excellent touch detection and wide viewing angle.

# Super Jolly | V Up electronic

## SIMPLICITY OF USE

The grinder is easy to use, and has everything you need to make excellent coffee in a small to medium-sized coffee shop. The Super Jolly V Up is a streamlined sibling to the V Pro with a touch-sensitive digital interface.

## MUST-HAVE FEATURES

Universal **portafilter holder** adjustable in height

**Portafilter activated grind button** to grind hand-free

**Stepless** micrometrical grind adjustment

Optional magnet to place a **tag** on the hopper with the name of the coffee

GFC

Grind Flow Control System

## MAXIMUM CONTROL

GFC Reduces the **electrostatic charge** which causes the coffee powder on tray and counter and **prevents clumping**. It is composed of a **removable** aluminum outlet insert equipped with an easy to clean extractable wire damper to get a **dynamic control** over the flow of coffee throughout the chute.

## RELIABLE AND ICONIC

The new Super Jolly V Up is addressed to those who look for simplicity of use without having to compromise on reliability or ergonomics.

A modern grinder that paid tribute to the iconic style of the 1971 Mazzer Jolly.

## HARDENED HIGH CARBON STEEL BURRS

64mm flat burrs have been re-engineered to **speed up** the dosing time by 20%. 100% made in Italy by Mazzer.

## SAVE COFFEE

Low retention grinder to **save time and coffee** each time you change your settings.

## CONSISTENT RESULTS

Uniform coffee grounds and consistent dosing to keep consistent results.

## DURABLE AND ECO-FRIENDLY

93% of the grinder weight comes from **premium materials** like stainless steel, aluminum, brass, and copper, to make it not only durable but also easy to recycle and eco-friendly.
